

RISH INSU-10 model DIGITAL INSULATION TESTER

RISH INSU-10

DIGITAL INSULATION TESTER in **50V** to **1000V** (Selectable voltage)
with Resistance Ranging **10KΩ** to **999MΩ**

- Insulation Resistance measurement from **10kΩ** to **999MΩ**
- Selectable Multi Test Voltages **50V/100V/250V/500V/1000V**
- Low Resistance measurement **0.01Ω** to **99.9Ω**
- Voltage Measurement >25V to 600V AC/DC
- Live Circuit Detection >25V irrespective of function selected
- Automatic Discharge of Capacitive circuits after Test performed
- Storage of Min/Max values
- Storage memory for last 50 readings
- Pre selectable limit checks (Go/No Go option) for **MΩ**
- Pre selectable Measurement time for Insulation Resistance Measurement from 10 sec to 5 minutes
- Continuity Testing with programmable Threshold Resistance
- Stop Watch function, Blown Fuse Indication
- Auto power off
- Power supply battery 6 X 1.5 V Cells, IEC LR6
